ABOUT FINANCIAL IT

Innovation is the common feature of the companies that we work with. Some are FinTech disruptors, posing a direct challenge to established institutions. Others are technology companies, providing solutions that produce positive outcomes for institutions and their clients.

Financial IT is a digital platform for multimedia and editorial content, rankings and overviews of major industry events. Financial IT magazine is published throughout the year in digital form. Financial IT magazine is available in print form at major trade events through our media partnerships.

We believe that our competitive edge comes from our established relationships with financial IT companies and institutions, the breadth of the solutions described and the quality of content. Financial IT provides a detailed map of the ever-changing space where the IT provider sector meets the broadly defined financial services sector.

We are the voice of the Solution Providers to the Financial Industry

Our coverage encompasses the following areas

**Transaction Banking**: Payments; Cash Management; Trade Finance; Foreign Exchange; Supply Chain Finance; Islamic Finance

**Banking**: Core Banking; Corporate Banking; Correspondent Banking; Mobile Banking; Online Banking; Retail Banking; Digital Banking; Crypto-currency Exchange

**Technology**: Cloud Services (SaaS, PaaS, IaaS, etc.); Blockchain; Distributed Ledger Technology; Cryptocurrencies; Data Management; Financial Applications

**Artificial Intelligence**: Automated Teller Systems; Call-Bot Solutions; Targeted Product Offering; Algorithmic Monitoring; Virtual Reality; IoT

**Security**: AML-CFT/KYC Requirements; Authentication; Compliance Monitoring; Data Protection/Firewalls; Fraud Detection; Auto-Bot Systems; Taxation Issues; Regulatory Compliance

**Data**: Big Data; Data Management; Market & Reference Data; Messaging; Audit & Reporting

**Trading Systems**: Algo/HFT/EFT; Buy and Sell Side Systems; Commodity Trading; Derivatives; Equity Trading; Low Latency Trading; Online Trading; Bitcoin Futures; Crypto-currency Funds

**Start-ups and Disruptors**
THE PLATFORM AT A GLANCE

**MAGAZINE:** Financial IT is a cutting-edge financial technology magazine. We cover the latest trends and issues in transaction banking, payments and cash management, mobility, cloud, security, trade and supply chain finance, compliance and regulations, as well as innovative and disruptive technologies and market infrastructures that underpin those businesses. Financial IT Magazine is always interested in serious industry advancing articles, blogs and research. Our professional staff of writers and editors can transform your ideas into impactful marketing tools.

**ONLINE CONTENT:** In addition to our magazine, Financial IT publishes a timely e-newsletter, which summarizes the latest industry developments, as well as proprietary and third-party content. Material includes blogs, video interviews, case studies, whitepapers and industry reports.

**MULTIMEDIA OPPORTUNITIES:** The Financial IT TV Channel broadcasts recent events, roundtables and experts' opinions within the global financial technology industry.

**INTERVIEWS:** Professional interviews can be arranged at industry events to add impact to your participation and continued marketing after the event. Interviews can be done face-to-face at your offices or other convenient locations. There is the ability to do telephone interviews.

**INDUSTRY RESEARCH:** Financial IT’s surveys make it easier for technology buyers to make informed decisions regarding best-in-class products. Started in 2017, the Financial IT Pathfinder Ranking reviews and ranks financial solution providers based on quantitative and qualitative data. Additionally, our experience in providing research and white papers for government, industry, charity and ICO’s has been a major resource for important messages and information to reach the market.
CUSTOM RESEARCH

We facilitate CUSTOM RESEARCH to produce thought leadership white papers. There are multiple approaches, such as creating a unique questionnaire to target your specific audience. Through detailed discussions with our expert researchers a specific plan will be designed together with you for superior results. Research studies and results can be private or can appear under your company name or under the Financial IT name in future magazine issues as well as on www.financialit.net.

TOP 50 FINANCIAL IT PATHFINDER RANKING

What is happening in the world of FinTech is change. To gain a clearer insight into how the FinTech universe will appear in future, we have developed the Financial IT Pathfinder Ranking, an authoritative listing of the 50 most promising start-up companies.

TOP 50 DIGITAL ONLY BANKS RANKING

Digital banks matter for three reasons. They have emerged from nowhere in a relatively short period of time. Most are a few years old. Importantly, digital banks use radical and new technology to innovate the future of banking today. Digital banks will continue to rapidly transform the financial services landscapes on a global basis.

TOP 12 CRYPTOS TO WATCH IN 2019

To select 12 crypto-currencies that in our opinion will provide a clear indication of major trends in the coming year. We began with a select group of 100 companies that are no more than a few years old.

We then consider:
- Market capitalization of the crypto currency. Generally a high capitalization is a good indicator.
- The number of coins or tokens circulating in the market. Higher valuation is a plus.
- The governance structure of the blockchain that is being used.
- Other features that really differentiate the company or the crypto-currency as a market leader.

Digital banks matter for three reasons. They have emerged from nowhere in a relatively short period of time. Most are a few years old. Importantly, digital banks use radical and new technology to innovate the future of banking today. Digital banks will continue to rapidly transform the financial services landscapes on a global basis.
